ご挨拶 Message from the President

It has been 20 years since MKP's establishment in September 14, 2000. This accomplishment was made possible because of the cooperation of all our business partners to whom from the bottom of my heart I extend my utmost gratitude.

With the customer-oriented motto in every business activities, MKP aims to become a trusted company that will continuously contribute to the improvement of its employees' well-being, to the local community and the Philippines as a whole. The idea of continuously aiming for further development of future projects is still applied up to now.

We persist to study and exert more effort everyday, being an organization that respects the rights of the people, provide a rewarding job for its employees and incessantly contribute to its community. And furthermore, with our capabilities, we are going to introduce new businesses and develop MKP's uniqueness with the aspiration of becoming not only the "Number-One" but the "Only-One" company in the country.

Our mother company based in Japan; MURAKI Ltd., celebrated its 114th year since its being established in 1906. It is also our goal to reach our 20th, 50th, 100th anniversary and further develop a prestigious establishment that will grow its roots in the Philippines.

We are looking forward for further guidance and encouragement from all of you in the future.
